Hobbies

- Playing Chess
- Reading Books
- Watching Movies

About Me

Eager to write reusable and clean code. Enthusiastic to work in a professional set-up and learn from colleagues. Keen to solve problems for the organization, express ideas, and thoughts, and apply our skillset. Overcome fear and achieve great success.

Projects

Myntra Clone

GitHub Repo:- https://github.com/Shibshankar01/Myntra
Tech Stack:- HTML | CSS | JavaScript
Features:
- Users can view all the products based on their categories and apply sorting and filtering based on the product price, size, etc.
- Users can add one or multiple products to the cart.
- Users can add coupons to get additional discounts.
- Users can navigate to different pages with the help of the navbar.
- Users can add multiple addresses and also checkout.

Key responsibilities:
- To develop the products page.
- To develop the filtering logic based on the product size.
- To develop the sorting logic based on the product price, discount, and popularity.

It was a collaborative project done by 7 fellow full-stack developers.

TMetrics Clone

GitHub Repo:- https://github.com/Shibshankar01/wooden-tongue-937
Tech Stack:- HTML | CSS | JavaScript
